

Setting up Half 2 Field (Under 9 to 11)

The equipment to set up Half 2 field (Half Sized Pitch) is located in the storage room. This is the field closest to the Railway Track (above diagram) and is played on the entire half of a full size field from the touch line to the other touch line. The 5x2 metre goals are used for this field. There is a bin that contains nets, 8 square pegs, flags, hammer and wheels. The substitutes benches are also located in the storeroom, likely already in the bin.

Goals

	Instructions	Example
1	The goals for this field is on the right hand side of the storage room. It is the 1 st set of goals	

<p>1a</p>	<p>The back bottom frame pieces are on the floor next to the goal frames.</p>	
<p>1b</p>	<p>All the equipment for the fields should be in this bin (it has the nets, benches, posts, pegs and wheels)</p>	
<p>1c</p>	<p>Square pegs and hammer are stored in a bucket in the storage room or in the bin. NOTE: square pegs and hammer is used for U8 goals as well and may be with the team setting up that field</p>	

2	Take the goal frame out of the storage room and place on the ground	
2a	Unstrap the Velcro strap and place them into the bucket for the people packing up the field to use. Unfold the goals and place the parts together	
2b	Connect the cross bar section together by pushing the button and pushing the section together	

2c	The connect section should look like this	
2d	Stand the goal frame up and turn the side frame pieces outwards	
2e	Unstrap 1 on the back bottom frame piece and the join the halves together, by pressing the button and pushing it together	
2f	Next to affix the back bottom section to the goal frame, ensuring the rubber padded section is on the bottom	

<p>2g</p>	<p>Next, join the back corner section together, by removing the clip piece, putting the rod piece into the holes on the corner section and back frame piece.</p>	
<p>2h</p>	<p>Clip the connector back on the rod. Do it for the other side as well</p>	
<p>3</p>	<p>Take the net out of the bin and unwrap it next to the goal</p>	

<p>3a</p>	<p>Next, is to affix the net onto the goal frame. Start by finding the corner section, this will be designated by the red flag. Put that section on the corner of the cross bar and the post.</p>	
<p>3b</p>	<p>Next is to get the net on by using the straps that are on the goal frame. Unstrap the strap and place the net between the post and strap</p>	
<p>3c</p>	<p>The net should be affixed as such</p>	

3d	Continue until you have the entire net on the frame. Now complete it for the 2 nd goal.	
4	Move the goals to the field of play, you can do this by you using the wheels. Place the post on the wheels and with 2 people on the bottom section you can push the goals into place	
5	Place the goals on the goal line in the middle of the goal box.	

6	Using the square pegs, peg the goal frame into the ground. 2 pegs for the back and 1 on each side. Place the 2 nd goal on the opposite end and do the same.	
---	--	--

Corner and Halfway Flags

	Instructions	Example
1	Corner and halfway flags are in the bin with the rest of the equipment	
2	Place 4 flags on each of the corners of the fields	

3	Place 2 flags on either side of the halfway line. Not on the line, but 1 metre outside the line	
---	---	--

Players / Coaches / Technical Area

	Instructions	Example
1	Benches for the player / technical areas is in the bin with the rest of the equipment	
2	Seats for the referees are in the storage room in one pile	

3	Unfold and the pull the legs out of the benches, ensuring the legs lock into place.	
3a	Ensure you push the lock clip into place on the underside middle section.	
3b	Place 1 bench in each player / technical areas.	
4	Place 1 chair on the half way line for the game leader referee.
